

## **About Vinni Leong and Winson Group (Macau) Limited.**

Vinni Leong returned from UK to Macao at the age of 24 for starting his own business. With overseas experience in marketing management and gambling IT projects, Vinni saw the market potential in Macao and set up the Winson Group (Macau) limited.

Winson Enterprise Solutions Limited (a division of Winson Group), founded in 2016, is a Macau-based technology services organization that has made a serious commitment to building a world-class and sustainable business in Macau and the region to support the growing dependency on critical IT services.

We have deep experience in managing technology deployments in the casino, hospitality and construction industries. We are proud to have in our ranks senior management that have held key director roles on major casino projects and with Fortune 500 companies. We also provide technical staff to augment our client's IT operations and projects to facilitate for them a scalable and cost-effective workforce.

We provide Galaxy Macau, Wynn Macau and MGM Macau with a scalable and flexible IT support model for its helpdesk and for roaming support to its business users. Winson Enterprise Solutions Limited prides itself on being a true local Macau company that employs local Macau ID holders and specialized IT resources via its blue card quota with a competent, international executive management team based in Macau. We strive to be as competitively priced as possible while ensuring our people are well trained and understand best practices in their positions.
