

Best Table Game Solution
Scientific Games – Infinilink

Why the nominated company/solution deserves to as best table game solution?

- a. Infinilink links a progressive jackpot among many different table games such as poker, baccarat, blackjack, pontoon, casino war and the likes. More games on the link means bigger, faster jackpots, linking any table games with pay tables no matter that math.
- b. A game featuring an Infinilink progressive plays the same as it always has – make a progressive wager to qualify for normal and Infinilink payouts, and a portion of your progressive wager will go to the Infinilink meter. At random times, players become eligible for Infinilink payouts for that round of play – if they hit the associated hand, they'll win both the regular and the Infinilink payout.
- c. Players are only eligible for an Infinilink payout when two conditions are met: they make a progressive wager for a round, and that round is randomly selected for an Infinilink payout.
- d. The hands and rounds selected for Infinilink payouts are completely random.
- e. Once players become eligible for an Infinilink payout, they must still hit the associated hand in order to win it. Remember – the original paytable is still in effect, players just have the opportunity to win a lot more.
- f. The first and largest Infinilink jackpot of Php 52,000,000 was with a property in the Philippines.
- g. As an added value to the gaming industry, Infinilink produced larger jackpots across varied table games, giving more players the chance at life changing jackpots on table games.
- h. We at Scientific Games expects Infinilink to bring table game winning to new heights as it gains industry popularity. Linking different table games for wins as this had never had been done before.
