WAR OF BETS BY BETGAMES.TV

WAR OF BETS

THE GAME IS PLAYED BETWEEN **TWO SIDES** –
THE **PLAYER** AND THE **DEALER**.

It uses a **standard** playing card deck. The **Dealer** deals **one card** face-up to each side in every draw of the game. Cards are dealt one at a time, and the **Player** always receives the **first card**.

The **goal** of the game is to **get a higher card** according to the ranking (aces count as the **highest** card, while deuces — as the **lowest**).

A **War** (Tie) occurs if the **Player** and the **Dealer** have the **same valued** cards. In this situation **War** (Tie) outcome wins, **both the Dealer and the Player** loses.
